Wounded Heroes Foundation and Veterans R & R

The **Wounded Heroes Foundation** [WHF] assists the severely injured men and women of our Armed Forces serving in Iraq, Afghanistan and around the world. These traumatic injuries that include vision and hearing loss, amputations, gunshot wounds, burns and blasts will retire these brave warriors from the very military service that now defines them. We demonstrate love and support by helping to meet their needs and the needs of their families. For more information go to, www.woundedheroesfund.net.

The mission of **Veterans R&R** is to create and foster outreach programs to enhance productivity and quality of life for United States Military Veterans, active duty personnel and their families. We create awareness and provide outreach programs to find the 50% of Veterans that never seek any assistance or have the knowledge of what's available to them. Not included in the 50% statistic is the Veterans that fall through the cracks. Our goal is when we get them involved it is then our job to keep them involved, whether it is the camaraderie from volunteering to Veterans that are afflicted with Post Wartime Challenges. So many Veterans become prisoners of their own homes and we work to get them out of their houses and back into their communities. For more information go to, www.veteransrandr.org.
